## Career objective

---

Passionate and dedicated B.Tech in Computer Science and Engineering with a specialization in Data Science and Machine Learning at Brainware University , seeking an opportunity to leverage my skills in Python, SQL, and Machine Learning. Enthusiastic about problem - solving and keen to contribute effectively to real-world projects.I have a strong interest in problem-solving and technology.

## Education

---

Year	Degree / Institute	Score
2022 - 2026	B.Tech in CSE (Data Science), Brainware University	60.11%
2021	Class 12 (BSEB),S.G.D Patliputra high school	67%
2019	Class 10 (CBSE),Patna convent	50.6%

## Projects

---

### Calculator Application

- Developed a functional calculator with a user-friendly interface.
- Implemented error handling for invalid inputs and division by zero.

### Weather Prediction System

- Built a system to forecast weather conditions using machine learning.
- Implemented data preprocessing, feature extraction, and model training.
- Integrated a user-friendly interface for real-time weather updates.

## Technical Skills

---

### Languages

C, Python,SQL, CSS, HTML

### Libraries

Numpy,Pandas,Opencv

### other skill

Machine learning ,Ms Excel, Currently learning and exploring web development using Flutter.

## Extracurricular Activities

---

- Internships Freelancing – Look for beginner roles in data entry, visualization, or Python scripting.  
-Coding Competitions Hackathons – Participate in events on platforms like coding club india:coder.  
Building mini projects - Small projects on data analysis, automation tasks, or basic data analysis projects.

## Languages

---

Hindi, English
